## TECHNICAL DATA SHEET

Page 1 of 1

### NAPHTHA, ALIPHATIC TT-N-95B

#### PRODUCT DESCRIPTION:

An aliphatic naphtha solvent available in two types.

#### TYPICAL PROPERTIES:

Volatile Organic Compounds	.....	706 - 766 grams/liter
Specific Gravity	.....	.708 - .768
Density	.....	5.89 - 6.39 lbs/gal

Type I: For Organic Coatings.  
Type II: For Cleaning Acrylic Plastics

#### DIRECTIONS FOR USE:

Thin specified types of organic paints and coatings up to 10% by volume with Type I. Clean acrylic plastics with Type II. The use of other thinners may cause the coating to blister and fish eye and the acrylic plastics to degrade.
