
Type I: Non-Porous surfaces (non-pressurized container).
Type IV: Porous or Non-Porous surfaces (stencil rollers).

Application method:
Rubber stamp from cloth covered felt stamp pad.
Stencil roller with pad, brush, or airbrush.

Weight: 10 lbs./gallon
Flash Point: 46° F
Viscosity: 38 cps
Specific Gravity: 1.20
Drying Time: 75 to 105 seconds.
Variations in temperature and humidity may effect drying time.
Colors: EIA and FED-STD-595.
Shelf Life: 2-years from date of manufacture.
Store at normal room temperature.
Cap container tightly after each use.
Chemical Base: Solvent.
Colorant Base: Pigment.
Re-conditioner: #1488
Most inks occasionally require thinning, especially the rapid drying varieties. Re-Conditioners are designed to dilute the ink, or replace evaporated solvents, without changing the drying and other properties of the ink.

Ink in stamp pads will lose solvents when pads are left open. It is recommended that you use small amounts of re-conditioner on the stamp pad as required, and especially before storage. Stamp pads should be stored in tightly sealed plastic bags when not in use.

Contents are FLAMMABLE. Keep away from heat and open flame.
KEEP OUT OF THE REACH OF CHILDREN. Do not take internally.
Avoid breathing vapor or mist. Do not use in tank or pit without proper protection.
Read Material Safety Data Sheet before use.
